

## Need to use a proper script for Samskritam

Even though Bhagavan understands all languages, the power of our Bharatiya languages cannot be matched in expressing our cultural values especially when rising to the plane of conversing with Bhagavan. Of them, the Samskrita bhasha is special in that it is pan-Bharatiya. Hence our scriptures, anushtana paddhati-s and a lot of bhakti sahitya texts are in Samskrita only.

We know that in Samskritam, especially for anushtanam, sound/pronunciation is important. Therefore one should write and read sankalpa shloka-s etc for anushtanam in an appropriate script which is capable of distinguishing all the sounds of Samskritam.

Now the Latin (English) script was evolved for other languages, and we all know the difficulty of correlating spelling and pronunciation even in English. Further, more letters are required to write Samskritam than English as there are more sounds in it. However, since Latin script is widely known, scholars felt it useful to create a Latin-based transliteration system for Samskritam.

In such a system, Latin letters which may be casually applied to different sounds need to be differentiated. For instance in Rama the first or second “a” may denote a long sound. This is differentiated as Rāma or Ramā. Similarly, other marks called diacritics are used to differentiate sounds as in ā ī ū ṛ ṝ ḷ ḹ ṁ ṁ̄ ḥ ṇ ṇ̄ ṅ ṅ̄ ṭ ṭ̄ ḍ ḍ̄ ṣ ṣ̄. Aspirated (mahāprāna) sounds are denoted with an additional h as in k/kh, g/gh, c/ch, j/jh, ṭ/ṭh, ḍ/ḍh, t/th, d/dh, p/ph, b/bh.

However, a system is useful only if followed correctly. If diacritics or added h-s are ignored and we do not read with the intended pronunciation, then the transliteration is no longer useful for its intended purpose. It is very easy to ignore diacritics as they are not in daily use. It would then have altogether been better to use a script which actually has different symbols for the sounds.

Therefore **it is strongly recommended to learn a Bharatiya script** like Devanagari, Grantha, Telugu, Kannada etc **which has clearly different letters to denote the various sounds**. Our documents are published in many such scripts.

However, with a view to help people who are not able to immediately learn such scripts, we are now publishing documents in Latin transliteration as well as per the system called International Alphabet of Sanskrit Transliteration (IAST). For the above reasons, people should use these as a temporary measure till they learn a Bharatiya script.

The Samskrita varnamala in IAST is given below with Devanagari equivalents:

a अ, ā आ, i इ, ī ई, u उ, ū ऊ, r ऋ, ṛ ॠ, l ल, ḷ ॡ

Snana should be done silently by uttering only mantras or Bhagavan Nama. Those who do snana in the river, should face against the flow of the river and those who do snana at other places should face the Sun.

Chanting Veda mantras in the following procedures are to be done by those who have learnt them. Others may chant the Bhagavan Nama of their choice or other stotras in praise of Bhagavan as mantras. Snana should not be done without mantras!

## sūktapaṭhanam

Varuna Sukta is to be chanted. Those who do not know may chant at least the Purusha Sukta. This is a prayer to Varuna before bathing.

## mārjanam

āpo hi ṣṭhā mayobhavaḥ ...

Saying the above mantras, one should do prokshanam just as in Sandhya-vandanam.

## aghamarṣanam

hiraṇyaśṛṅgaṁ varuṇaṁ prapadye ...

The sukta starting as above may be chanted by those who know it. Those who do not know may recite Purusha Sukta here as well. Here one should take at least 12 dips and bathe.

After doing this Sankalpa, one should do the tarpana as in Brahmajajna.

## dānam

Then, according to one's capacity, saying the following mantras, offer dakshina to Brahmanas.
