

Need to use a proper script for Samskritam

Even though Bhagavan understands all languages, the power of our Bharatiya languages cannot be matched in expressing our cultural values especially when rising to the plane of conversing with Bhagavan. Of them, the Samskrita bhasha is special in that it is pan-Bharatiya. Hence **our scriptures, anushtana paddhati-s and a lot of bhakti sahitya texts are in Samskrita only.**

We know that in Samskritam, especially for **anushtanam**, **sound/pronunciation** is important. Therefore one should **write and read sankalpa shloka-s** etc for anushtanam in an appropriate script which is capable of distinguishing all the sounds of Samskritam.

Now the Latin (English) script was evolved for other languages, and we all know the difficulty of correlating spelling and pronunciation even in English. Further, **more letters are required to write Samskritam** than English as there are more sounds in it. However, since Latin script is widely known, scholars felt it useful to create a **Latin-based transliteration system for Samskritam.**

In such a system, Latin letters which may be casually applied to different sounds need to be **differentiated**. For instance in Rama the first or second “a” may denote a long sound. This is differentiated as Rāma or Ramā. Similarly, other marks called diacritics are used to differentiate sounds as in āā īī ūū ṛṛ ṝ ṝ̄ ṁṁ ḥḥ ṇṇ ṇ̄ ṭṭ ḍḍ ṣṣ. Aspirated (mahāprāna) sounds are denoted with an additional h as in k/kh, g/gh, c/ch, j/jh, ṭ/ṭh, ḍ/ḍh, t/th, d/dh, p/ph, b/bh.

However, a system is useful only if followed correctly. **If diacritics or added h-s are ignored and we do not read with the intended pronunciation, then the transliteration is no longer useful for its intended purpose.** It is very easy to ignore diacritics as they are not in daily use. It would then have altogether been better to use a script which actually has different symbols for the sounds.

Therefore **it is strongly recommended to learn a Bharatiya script** like Devanagari, Grantha, Telugu, Kannada etc **which has clearly different letters to denote the various sounds.** Our documents are published in many such scripts.

However, with a view to help people who are not able to immediately learn such scripts, we are now publishing documents in Latin transliteration as well as per the system called International Alphabet of Sanskrit Transliteration (IAST). For the above reasons, people should use these as a temporary measure till they learn a Bharatiya script.

The Samskrita varnamala in IAST is given below with Devanagari equivalents:

a अ, ā आ, i इ, ī ई, u उ, ū ऊ, ṛ ॠ, ṝ ॡ, ḷ ॴ, ḻ ॵ

Prepare the Nimba Kusuma Bhakshanam and start the puja.

In water soaked with Tamarind, grind Neem flowers, filter it and add jag-
gery. This is called Nimba Kusuma Bhakshanam.

During the Panchanga reading, the following should be read: The year's Navanayaka phalam, Makara Sankranti phalam, Kandhaaya phalam, Rashi phalam, Grahanas, and details on the Udaya and Astamana of the Grahas. Then, the Chithirai 1st date Panchanga should be read twice.

These details will be given in every Panchanga in different places. One should note them down the previous day and read them after the Panchanga Puja, while others listen.
